To Whom It May Concern:

Ref: Mercier Securities Ltd.

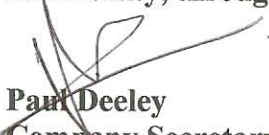

Mercier Securities Ltd have proved to be an effective force in the fight against break-ins, vandalism, theft, and damage to business premises in Coventry.

The effectiveness of the company has been developed in many ways. Firstly its ability to train and co-ordinate the guards in a manner demanded by the high standards of business today. This is reflected in static guard duty, mobile patrols, CCTV monitoring and key holding services.

Secondly, Mercier Securities Ltd have worked closely with businesses on Bayton Road Industrial Estate, and further developed a working relationship with the Police in order to maximise co-operation in troubled times.

Thirdly, Mercier Securities Ltd operate an "Open Door" policy, whereby any client, or potential client can visit them at their new Business and Training Centre on Bayton Road. Clients will be warmly received by the professionalism that has fast become their hallmark.

My involvement with the company over the last twelve months has shown me the scope and capabilities of their services, and was very instrumental in them being shortlisted for the largest single Bid investment planned for the Warwickshire business community, through Government and Chamber of Commerce funding.

  
Paul Deeley  
Company Secretary.
