

MERCIA SECURITIES

Professional security services for the business community

Security Industry Training

The correct training and development of individuals working in both the public and private sectors including the security industry, hospitality, health service, retail and licensed trades is fundamental. Many of these industries are now under a legal requirement to provide training in line with SIA requirements and other government legislation.

Mercia Securities can provide a personalised and professional service that will reduce the risks to businesses and enhance your professionalism and career prospects of individuals. We provide a number of courses including SIA training courses, bespoke security training and close protection training.

It is essential that individuals working in the private security industry undergo a structured training programme that results in a recognised qualification.

The SIA (Security Industries Association) have developed a competency requirement as part of their licensing function. Individuals applying for an SIA licence must prove that they are properly qualified to do their job. If they don't hold one of the SIA-endorsed qualifications then their licence application will be refused.

The SIA believe that this will result in a more competent and professional workforce. It will also improve the public image of the private security industry and make it more attractive to potential employees.

At Mercia Securities we provide ongoing training to help you fulfill these requirements and enhance the professionalism and competence of your working environment.

Our courses include:

- SIA training courses
- Bespoke security training
- Close protection training
- First aid and fire training
- Personal security
- Self defence courses.

We are specialists in the training and development of individuals working in both the public and private sectors including the security industry, hospitality, health service, retail and licensed trades. These industries now have a legal requirement to provide training in line with SIA guidelines and other government legislation.

Our aim is to provide practical solutions to our clients' training needs. From corporate clients to individuals we can offer bespoke security training customised to your business requirements. We pride ourselves on offering experienced trainers who have worked in and understand the demands of the security business. We provide a personalised and professional service that as a Company will reduce the risk to your business and as an individual will enhance your professionalism and career prospects.

Our main training centre is based in Coventry, just a few minutes away from J3 of the M6. Accommodation is available nearby.
